

Web-based Solution for Military COOP Planning

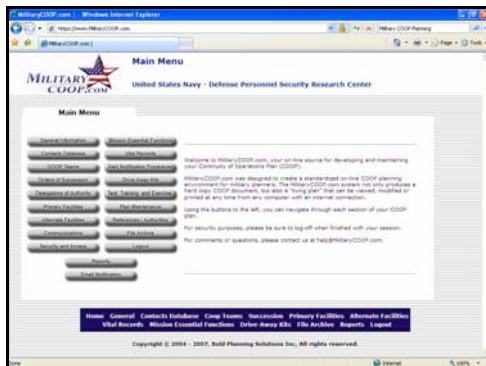

MilitaryCOOP.com is a web-based planning system designed specifically to meet the Continuity of Operations Planning (COOP) requirements of DOD Directive 3020.26, Presidential Decision Directive 67 (PDD 67) and FEMA Federal Preparedness Circular 65 (FPC 65). The integrated system guides military planners through each step in the process of developing a COOP. The MilitaryCOOP.com approach provides an unparalleled planning solution to military planners, making the plan development process easy to understand and highly efficient to maintain.

MilitaryCOOP.com Features:

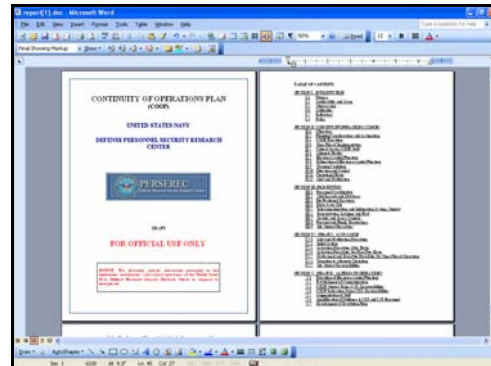

- Easy-to-use, guides users through the process of developing COOP plans, and requires no experience prior to use
- Scalable for use by military locations of all types and sizes; system standardizes and streamlines the planning process for complex operations, manages the data collection process and keeps all planners working in a common planning environment
- Built in Helper Tips (?) literally “walk” users through the various sections of developing their plan and explains the strategies/views to consider for each area
- Creates a hard-copy Microsoft Word document that can be printed, as well as a “Living Plan” that can be updated or modified online at anytime.
- Password protected, secured with 128-bit encryption, plan information can be accessed at anytime 24/7 from any computer having an internet connection.
- Built-in Review and Grading tools; Project Managers can now provide real-time, online feedback to planners for future plan revisions and enhancements.

Web-based / Password Protected

Downloads data into a standardized, formatted Microsoft Word Document

MilitaryCOOP.com - Continuity of Operations Planning System

MilitaryCOOP.com is an easy-to-use planning tool that walks users through each step of developing a Continuity of Operations Plan (COOP) and has been specifically designed to meet the COOP planning requirements of DOD Directive 3020.26, Presidential Decision Directive 67 (PDD 67) and FEMA Federal Preparedness Circular 65 (FPC 65).

The system walks users through each step of the COOP planning process and helps develop an organization's overall COOP strategy. The strategy includes the roles and responsibilities an organization should take in order to efficiently relocate and continue its essential functions during disruptions or unexpected events. The primary focus of a continuity plan is to ensure that an organization has addressed and identified the issues of relocation and protected its ability to continue the organization's Mission-Essential functions.

Using MilitaryCOOP.com, organizations can be assured that their plan is developed and maintained within a system built upon COOP planning best practices and military planning standards. Thereby, users are better able to maintain focus on the major areas of their COOP, including:

- Essential Functions
- Primary and Alternate Facilities
- Vital Records and Resources
- COOP Teams and Responsibilities
- Lines of Succession
- Delegations of Authority
- Communications
- Test, Training, and Exercises
- Plan Maintenance
- and more!

"...within just a few hours of using the system, I understood what types of information went into my plan and why. MilitaryCOOP.com made the process easy, and I'm really glad I didn't have to start with just a blank sheet of paper"

"...our management used the system to help manage the COOP planning process for our 12 separate divisions...each division needed a different plan overall with different content and strategies suited to their operations...the standardized reporting capability in the system was the key to our success; making each of our plans consistent in the output. Had we chosen to do this process by hand, it would have been completely unmanageable and our plans would not have been consistent"

The Bold Team is always available to provide an on-line demonstration of our solutions. To request information or schedule a demo, please contact us at info@BoldPlanning.com or (615) 469-5558.
