Our partnership with BOLDplanning took us from frustration to success.”

“BOLDplanning is my first choice [for Hazard Mitigation Planning] because of their great customer service and expertise. We utilized BOLDplanning with our current plan. When it was time for FEMA approval, the plan was approved with some minor adjustments that were taken care of during a conference call with FEMA. The planner was involved with us during the entire process, and I believe the open communication allowed our current plan to gain a quick FEMA approval.”

- **Dan H. Heerding, Emergency Management Director**

City of Clovis/Curry County (NM)

“The BOLDplanning tool was just what we needed as RIEMA worked toward national accreditation through the Emergency Management Accreditation Program (EMAP). The company’s staff was super knowledgeable and patient as we worked together for a year building a total of 51 Continuity of Operations Plans (COOPs) for the State of Rhode Island. We passed our EMAP on-site assessment with flying colors, and I consider BOLDplanning a valuable component of our EMAP success story.”
